Live Safe is a judgement- free digital space that aims to provide information and support to young people and parents/carers in Leicester, Leicestershire and Rutland.

Curated by the [Violence Reduction Network](#) it brings together key information from across the partnership about topics that may put young people at risk of serious violence. There are subsections of information relevant to each audience.

Designed with young people in mind it aims to breakdown the barriers in accessing information, as we understand talking about violence and where it leads to can be difficult for them, especially when it comes directly from enforcement organisations.

Its purpose is to clearly sign post users on where to turn for advice, and to help them understand how these topics can affect their community, their health and their wellbeing.

It aims to highlight to users what they can do to help keep them, their mates, their family and their community safe.
