What is Trauma Informed Partnership Working?

Barriers to Partnership Working

- Managing relationships between individuals.
- Time and resources.
- Fear or worry about potential impacts or risks.
- Different levels of commitment.
- Different in expectations.
- Undefined purpose or responsibilities.
- Power differences and struggles.
- Backgrounds and cultures (including organisational culture).
- Tokenistic: decisions made elsewhere.
- Lack of structure to guide people.

Benefits of Partnership Working

- Improving outcomes for individuals

- Increasing cost effectiveness of service

- Better decision making

- Improved quality of service delivery

- Meet legal duties

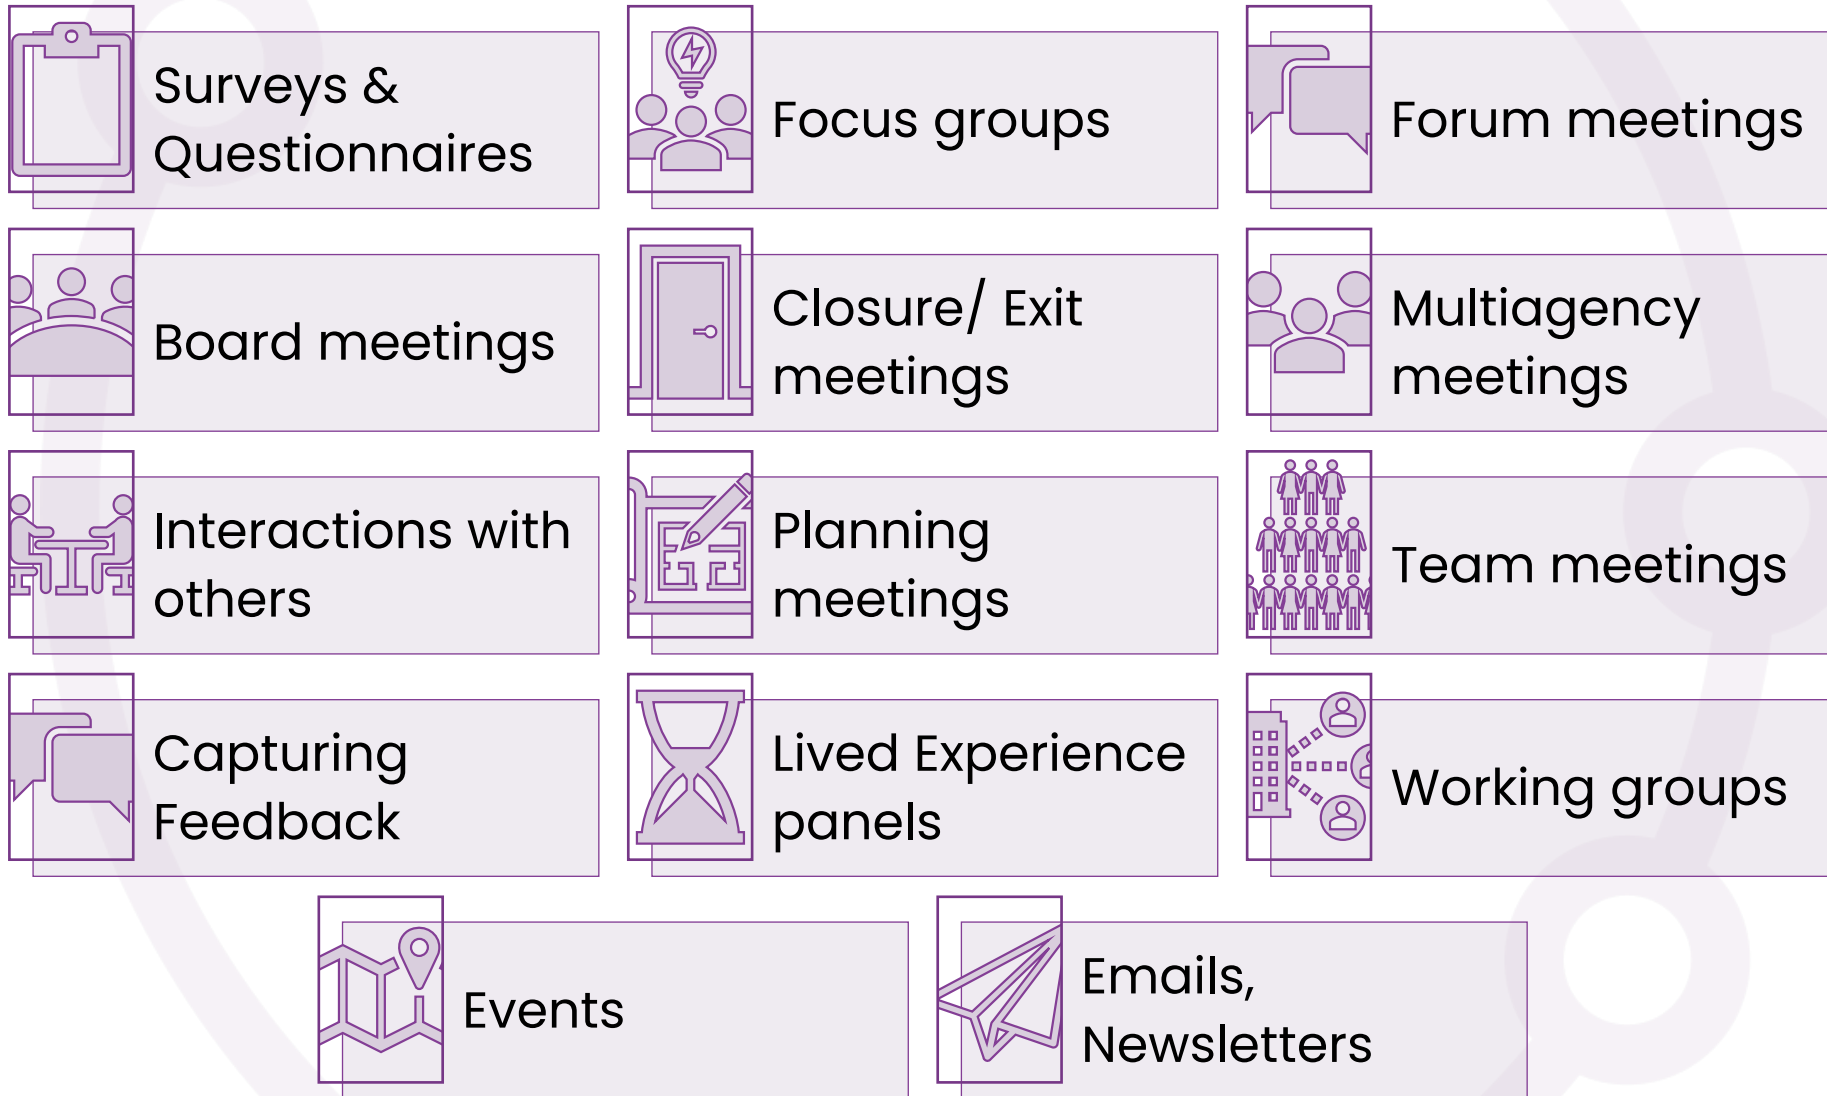

- Increases accountability and transparency

- Increases participation and engagement

What can Partnership Working look like?

Connecting Across Organisations

Trauma Informed Schools Forum

The Forum meets for an hour each half term

Do you work in or around the Education system?

Do you want to build resilience for children, families and the community?

Would you like support to create a trauma informed school that benefits everyone?

TRAUMA INFORMED COMMUNITY OF PRACTICE LEICESTER, LEICESTERSHIRE AND RUTLAND

The Community of Practice (CoP) is a cross sector network of professionals with a shared understanding and ambition of embedding trauma informed practice into their roles. We welcome all those working directly or indirectly with children, adults and communities in Leicester, Leicestershire and Rutland.

Co-producing Resources

Meetings held once a quarter

Finding Solutions Together

Sharing Best Practice

Steering Change Locally

Trauma Informed Partnership
Leicester, Leicestershire and Rutland

Trauma Informed Partnership Network

Working together in Leicester, Leicestershire & Rutland to:

- Increase awareness & understanding
- Develop and deliver prevention strategies
- Equip & support our workforce
- Support organisations to become trauma informed
- Build resilience in partnership with communities

Are you passionate about systemic change for improving outcomes?

Are you part of strategic decision making in your organisation?

Do you have a role in commissioning or designing services locally?

Meetings held once per quarter for opportunities to receive system updates, steer systemic change and hear from guest speakers on topics of interest.

www.violencereductionnetwork.co.uk

Community Partnership Framework

You can read our full Community Partnership Framework here

OUR PRINCIPLES:

We will invest in relationships and work with communities as partners

Involve the communities most affected by violence.

Adopt a creative, flexible and adaptable approach.

Be ambitious, courageous and champion change.

Find out about what we mean by communities here ([link to web page](#))

OUR MISSION

Build an inclusive, collaborative and courageous network to secure the change required to prevent violence. Communities are core partners in our Network.

INFORM

Providing communities with the knowledge they need to play their part and keeping them informed about our work, available resources and forthcoming opportunities to get involved.

COLLABORATE

Co-producing with communities through involving them in the design, delivery and evaluation of violence prevention strategies and activity.

CONSULT

Seeking and drawing on the insights, views and expertise of communities to ensure our work is relevant and responsive.

EMPOWER

Enabling communities to secure change through investing in knowledge and skills and providing concrete opportunities in relation to decision-making and shaping and delivering services.

OUR IMPACT

- Improved understanding of violence
- Increased effectiveness of responses
- Increased reach of young people
- Increased feelings of safety
- Reductions in violence

**WE ARE
VOICES**

Valuing Our Individual Communities' Experience and Skills

- To support and constructively challenge the delivery of the Leicester, Leicestershire, and Rutland (LLR) R2SV Strategy by integrating the voices of people from different backgrounds in shaping and influencing policy development, decisions, and delivery.
- To support a fully inclusive approach in overseeing the progress of LLR public agencies, through the R2SV, in tackling inequality, tracking actions to improve equity and providing insight to inform new ways of working.
- To work collaboratively with key stakeholders of the LLR R2SV partnership to design new ways of working, which:

VOICES – Importance of safety and power

- Assessment prior to joining VOICES (but is an ongoing process)
- Enable others to be heard – co-production approach to all work

A purple ink blot graphic with a rough, torn edge, containing the text 'SEXUAL VIOLENCE KNOWS NO BOUNDARIES'.

**SEXUAL VIOLENCE
KNOWS NO BOUNDARIES**

VOICES – Progress so far

- One year anniversary
 - Provided feedback to Leicestershire Police about what elements provide a ‘good’ case update
 - Reviewed and amended ‘Victims’ journey’ booklet
 - Consultation on ‘Language Matters’ document/police training

To provide my years of
experience to real
practice

To make a
change!

Ability to ensure that the
voices of those who are
affected are heard in the
ways and spaces that
could make best impact

VOICES has provided a
platform where survivors/
victims are considered, heard
and feed into projects to
ultimately improve the
experiences in report and
support avenues and help
remove barriers.

It has been amazing to be a part of
the VOICES team to contribute
how lived experience affect
survivors of sexual abuse. Our
VOICES are helping change how
the force conduct themselves to
provide a better service for
survivors

**LET'S COME
TOGETHER**
